

Messi's Grip

Hi I am Natasha, I am seeking for \$250,000 for 15%
of my company Messi's Grip!!

It all started when i was going too play soccer in my backyard. I put my cleats on and was going too walk across the floor to go to my yarrd. Then my dad stoped me and said “it would scrach the floor”. Then that is when I got the idea.

Golden Cleats

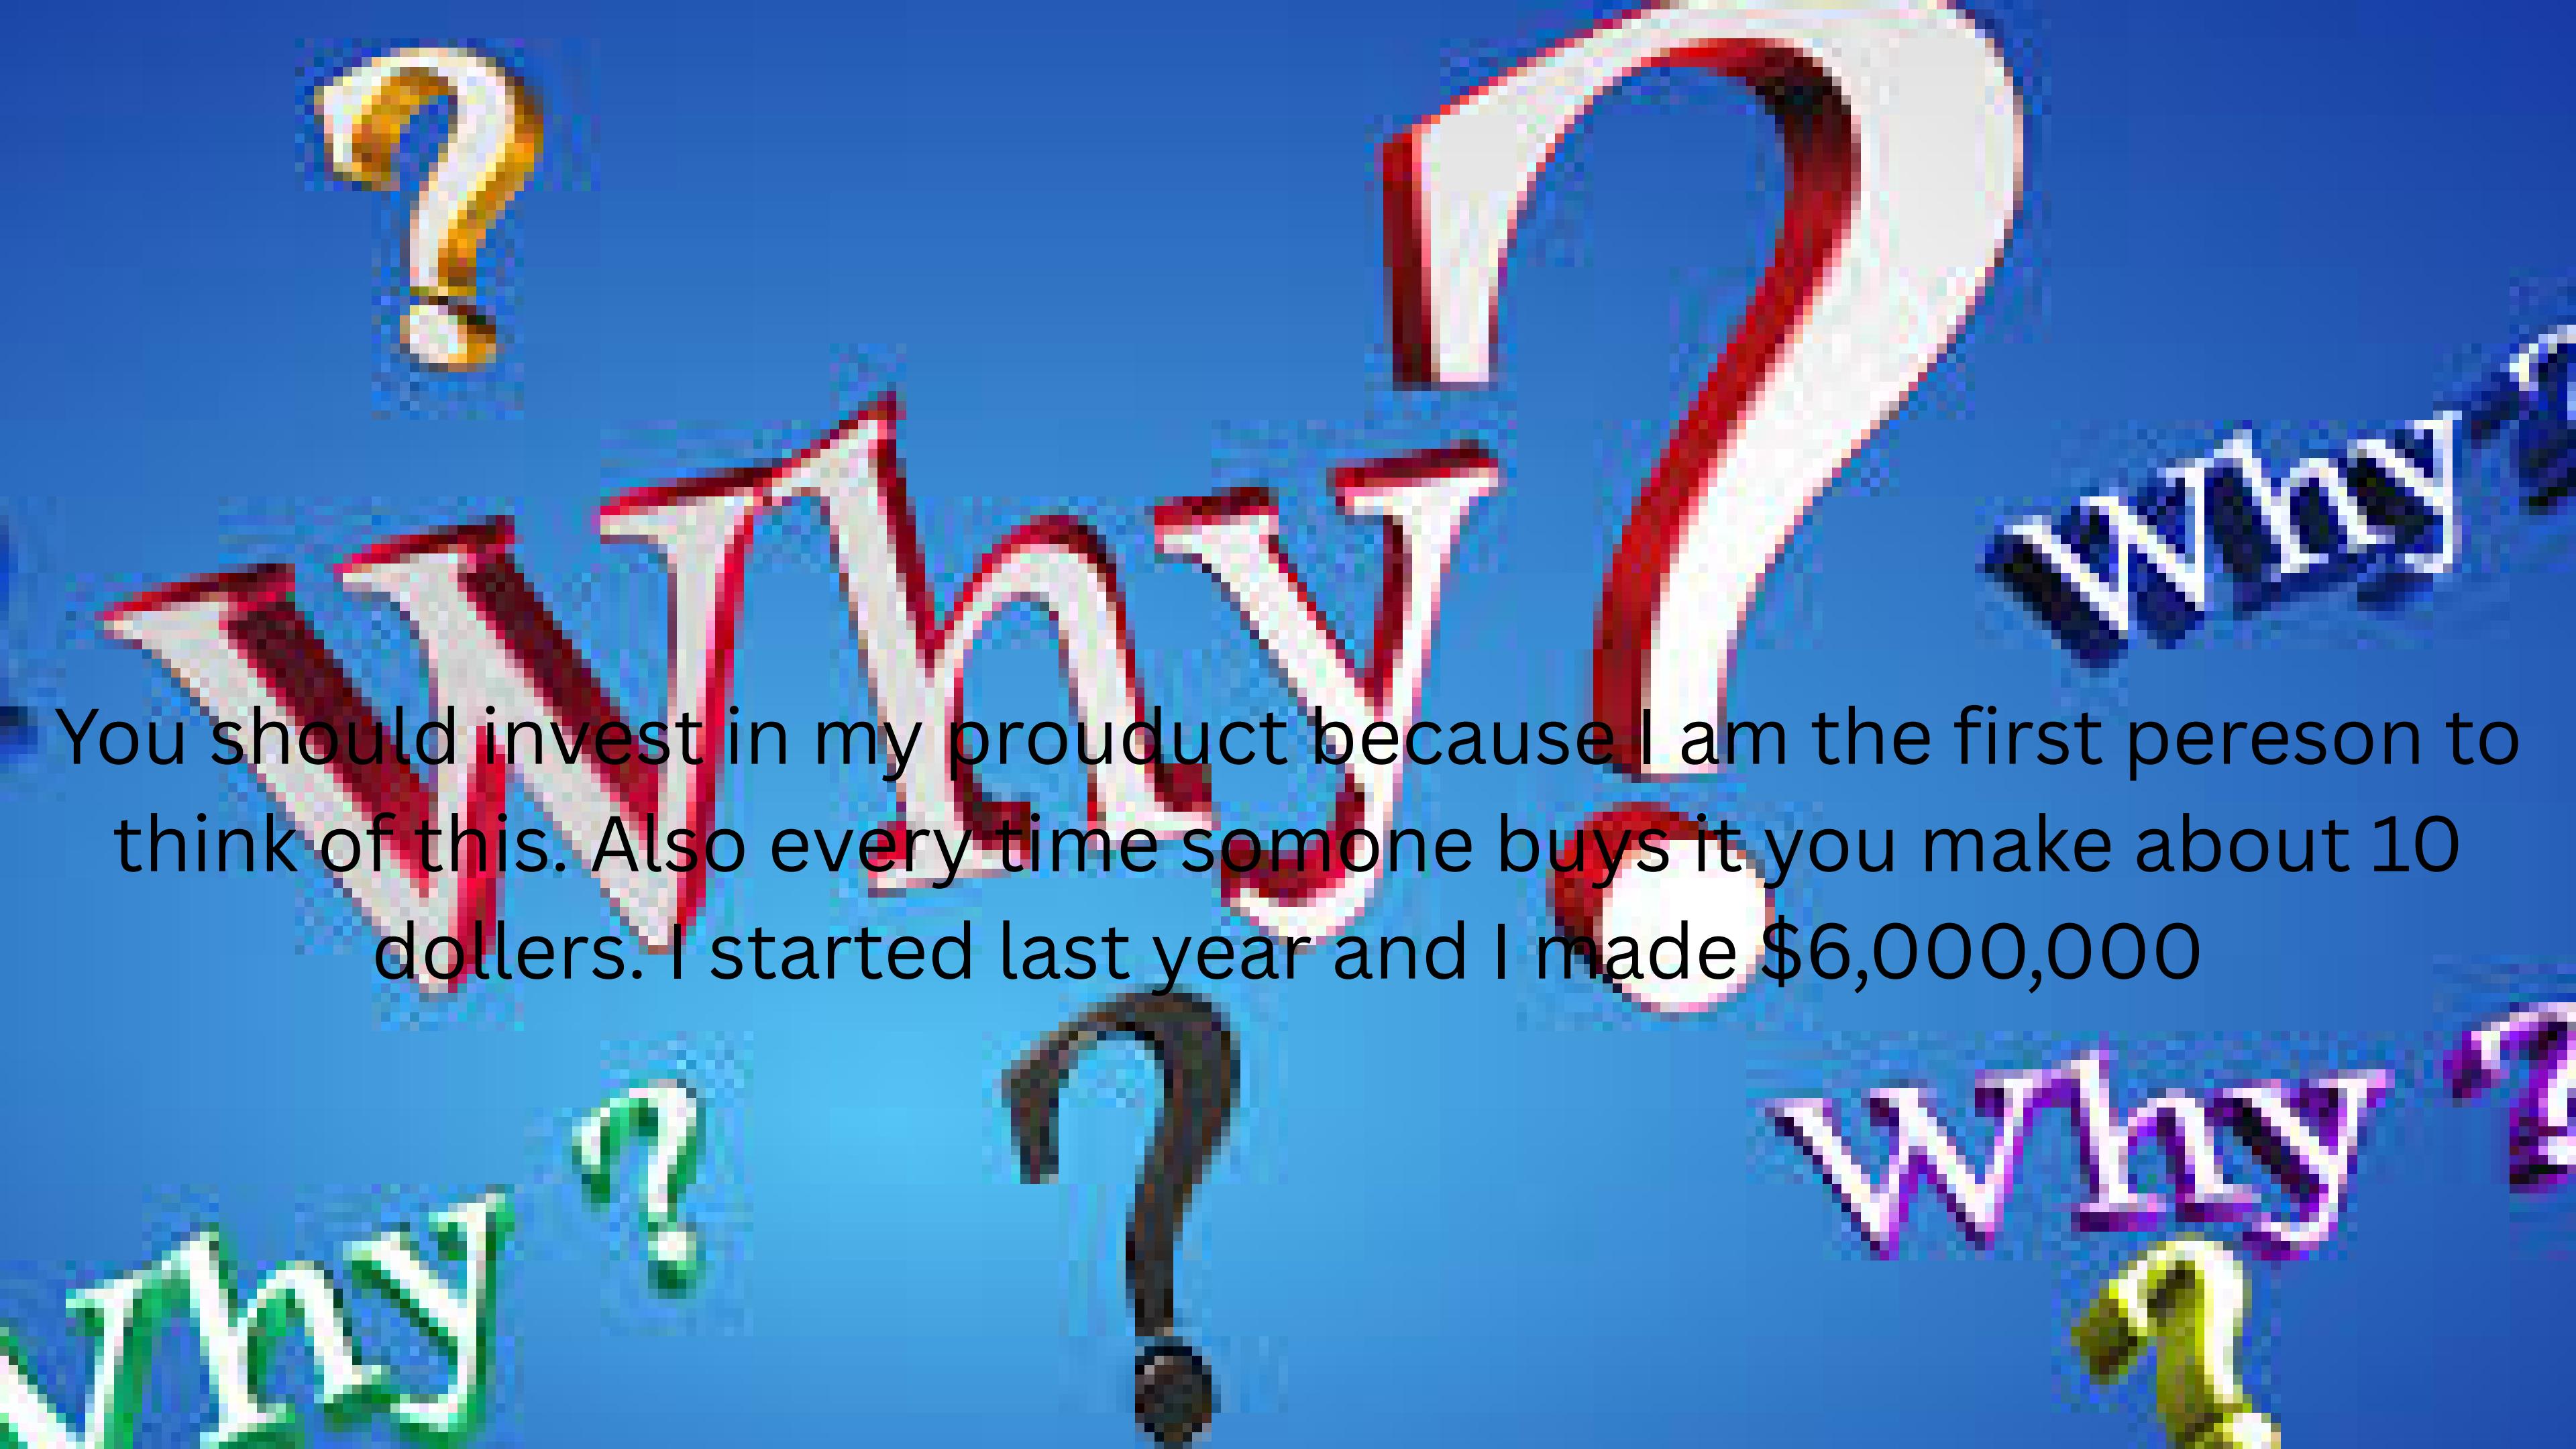

Rubber Ejection

This is a pair of performance cleats that features an integrated rubber mechanism on the bottom of the sole, designed to quickly remove and eject all the spikes from the cleats—no tools, no hassle.

Modular Spike System

Prices

I am selling my product for \$13!! It costs 3 dollars to make it.

You should invest in my product because I am the first person to think of this. Also every time someone buys it you make about 10 dollars. I started last year and I made \$6,000,000

I hope you like my product
